Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Self-Administered Questionnaire Part B	50
Self-Administered Questionnaire Part C	55
Physical Measures	60
Additional Measures	62

DOCUMENTATION FOR THE PUBLIC-USE SWAN VISIT 02 DATASET

CHANGES IN THE 2017 DATA REFREEZE:

- A variable describing the race of participants (RACE) was added from the Screener dataset. See the Additional Measures section at the end of the codebook for more information.
- The race/ethnicity of one participant was originally mislabeled and has now been corrected. Race fields now read Caucasian, not Black, for this participant.
- If the interview was not completed, but the Self-A was completed, AGE was calculated based on the date the participant filled in the Self-A Questionnaire.
- Variables STATUS2 and LMPDAY2 have been updated and are pulled from another source that evaluated the
 menopause status related variables over time, and corrected inconsistencies via additional corroborating
 information. PLEASE NOTE: STATUS2 has been changed from the prior release to split the surgical category
 into 'Post by BSO (Bilateral Salpingo Oophorectomy)' and 'Unknown due to hysterectomy.' See the Additional
 Measures section at the end of the codebook for more information.
- For the Interview dataset:
 - Job start and stop times (D3) were changed to military time format, and the AM/PM variables dropped.
 - The partner/spouse job title variable PARTNJO2 was dropped
 - One participant's answer of "Yes (2)" to QB26.i (Had heart attack since last visit?) was proved to be an entry error when questioned later. The corrected answer should be "No (1)" and was updated.
- For the Self-Administered Questionnaire Part A:
 - The variable FEARFUL2 was renamed to FEARFULA2 so there is no longer a duplication with a different questionnaire item in the Annual Interview.
 - One participant had a COMP_D off by one year; date was corrected in both questionnaire parts A and C, and the age recalculated.
- The Self-Administered Questionnaire Part B data were refrozen to address the following issue: 12 women either
 left the entire questionnaire blank or refused all items. Their forms should have been set to off protocol, and they
 should not have been included in the final frozen dataset. They have been removed, leaving a total of 2667 with
 Follow-Up 02 Self-B data.
 - For the Self-Administered Questionnaire Part C, One participant had a COMP_D off by one year; date
 was corrected in both questionnaire parts A and C, and the age recalculated.
- For Serum Hormone Measures dataset, the lower limit of detection (LLD) ranges have been updated. See the Additional Measures section below (pp 61-62) for more information.
- In the physical measures section, self-reported weights were included for 8 participants.
- Spine Bone Mineral Density changed slightly for 45 participants due to incorrect application of correction factors

1. Who is included in the public use dataset:

The dataset contains follow-up visit 2 information for the 3,302 women from the 7 clinical sites participating in the SWAN longitudinal study. The sites include Boston, MA, Pittsburgh, PA, Oakland and Los Angeles, CA, Detroit, MI, Newark, NJ, and Chicago, IL.

2. How this codebook is constructed:

Following this documentation section are copies of each of the questionnaires that were used at visit 2. A list of additional variables is also provided. The questionnaires include the variables available for public use next to the question in bold red uppercase underlined letters. Those variables not available for public use have a # before the variable and are in blue. Any special notes are indicated with footnotes at the bottom of the page.

The assigned participant ID has been replaced with a randomly generated SWANID in order to protect participant privacy. The *baseline* interview date is denoted as day 0 and is used as the basis for all other dates. All other questionnaires or data collected that have a date attached have been converted to the number of days from the baseline interview. For example, if the Visit 2 Self-Administered Questionnaire Part A was collected two years after the baseline interview, the day for the Self-Administered Part A would be day 730 and the Baseline Interview would be day 0.

All variables for visit 2 have a 2 at the end of the variable name.

Documentation Page 4

3. Missing data coding:

Missing codes are as follows: -1: not applicable, -7: refused, -8: don't know, and -9: missing.

4. Ways this data can be used and additional notes

Interview Questionnaire

An osteoporosis variable was created based on text fields in the other prescription medication questions. In general, most 'Other, specify' text fields are not included in the dataset.

- A social support score can be calculated from the questions in C.9.a-d after recoding them from a 1-5 range to a
 0-4 range.
- o CES-D scores can be created from the guestions in C.11.
- o A perceived stress score can be created from questions in C.10.
- o The flag FLGINTV2 is set for the five participants who completed the interview after the 01/31/2000 cutoff.

Self-Administered Questionnaire Part A

The income question I.1 was condensed so that the income ranges were more broadly defined.

- Current smoking is defined as anyone who answered 'yes' to question B.8 (SMOKERE2) and an answer greater than 0 for B.8.a (AVGCIGDA2).
- SF-36 scores can be derived based on questions B.14-20 according to the SF-36 User's Manual. Responses may need to be reversed where necessary so that all items are positively scored, so that a higher value indicates better functioning. The Role-Physical scale uses the variables from question B.14a-d. The Bodily Pain Score is calculated from questions B.17 and B.18. Item recoding depends on whether both questions were answered or one of the items has missing data. After recoding, all the items are positively scored so that a higher score indicates less pain. The SF-36 Vitality Score is calculated from questions B.19a-d. Questions B.19.a and B.19.b should be reversed so that all items are positively scored; for the resulting index a higher score indicates greater energy (and less fatigue). The Social Functioning Score is calculated using questions B.16 and B.20. Question B.16 is reversed so that all items are positively scored; for the resulting index a higher score indicates better social functioning. The Role-Emotional Score is calculated using questions B.15a-c. All items are positively scored, so a higher score indicates better role-emotional functioning.
- The flag FLGSAAV2 is set for the four participants who completed the interview after the 01/31/2000 cutoff.

Self-Administered Questionnaire Part B

The flag FLGSABV2 is set for the four participants who completed the interview after the 01/31/2000 cutoff.

Physical Measures

In addition to the variables on the form, BMI2 was also calculated as weight in kilograms divided by the square of height in meters.

Additional Measures

Additional variables

Menopausal status (STATUS2) and last menstrual period day (LMPDAY2) are also provided. Participant race/ethnicity (RACE) is provided from the Source dataset. See the Additional Measures section at the end of the codebook for descriptions.

Date of completion variables (INTDAY2, SAADAY2, SABDAY2, SACDAY2, PHYDAY2, HRMDAY2, SPSCDAY2, HPSCDAY2, LMPDAY2, SPEDAY2, HYSTDAY2) are given in days from interview date at baseline. Note that for 5 participants, interview completion dates at baseline were not available and alternative dates were substituted either from the Self-Administered Questionnaire-A or Physical Measures completion dates at baseline.

Serum Hormone Measures

The Visit 2 hormone results are included. Of special note is that the estradiol assay was run in duplicate. The average (E2AVE2) is the within-person arithmetic average of the two assays. A flag indicates if the estradiol results differed by > 10 pg/mL where one or both results <= 20 pg/mL. Hormone results below the lower level of detection (LLD - see table in the Additional Measures section) were recoded to an .L value. Note that neither estradiol measurement nor FSH had any values below the LLD.

Cardiovascular Measures

Blood samples to perform the cardiovascular assays were collected in Visit 2, but they will be assayed at a later date.

Bone Mineral Density Measures

Five of the seven sites participated in the bone study – Detroit, MI, Boston, MA, Oakland and Los Angeles, CA, and Pittsburgh, PA. Total spine and total hip bone mineral density (BMD) measures are provided.

Study of Women's Health Across the Nation

ANNUAL FOLLOW-UP INTERVIEW

SECTION A. GENERAL INFORMATION

AFFIX ID LABEL HERE

DAG	F 3)		

 $[\]tilde{\ }$ A randomly generated ID will be provided that is different from the original ID

[†] This date is given in days since the initial baseline interview, which is day zero.

Before we draw a blood sample I need to ask you a few questions.

A10.	Have you had anything to eat or drink, other than water, in the last 12 hours? That is, since: last night?	
A11.	Did you start a menstrual period in the last 5 days? NO	
A12.	What is the date that you started to bleed? $\frac{DAYBLE2^{\dagger}}{M} {M} {D} {D} {V} {Y} {Y} {Y} {Y}$	
A13.	BLOOD DRAW ATTEMPTED? YES, AS PER PROTOCOL YES, MENSES TOO VARIABLE YES, LAST ATTEMPT YES, RESPONDENT PREGNANT NO, NOT FASTING AND/OR NOT IN WINDOW - RESCHEDULE 5	(A14) (A14) (A14)
A13.1	Unfortunately this is not the best time to draw a blood sample. In order to get the best information for this study, we need you to fast for 12 hours and to be within 5 days o menstrual period. We need to reschedule a good day to draw your blood. [INTERVIEWER HAND INSTRUCTION CARD TO RESPONDENT AND EXIGO TO SECTION B ON THE NEXT PAGE	f starting a
A14.	FOLLOW BLOOD DRAW PROTOCOL RECORD COLLECTION TUBES FILLED ON SPECIMEN COLLECTION FORM	
A15.	BLOOD DRAWN? NO 1 YES 2	

[†] This date is given in days since the initial baseline interview.

ASK RESPONDENT TO GATHER PRESCRIPTION MEDICATIONS SO THEY ARE WITHIN REACH. REMEMBER, DO NOT READ OUT LOUD ANY SCRIPT IN CAPITAL LETTERS.

I would like to begin the interview by asking you some questions about medications.

The medications you take, both those prescribed <u>and</u> from over-the-counter (OTC), can have a major influence on how well you feel, how you respond to events in your life, and the continued maintenance of your health. We want to know about any medications you have taken <u>since your last study visit.</u>

I will start by asking about any pills or medicines, including patches, suppositories, injections, creams and ointments which are <u>prescribed</u> by your doctor or other health care provider, that you have taken <u>since your last study visit</u>.

IF YES TO ANY, RECORD MEDICATION NAME IN THE SPACES PROVIDED	PRESCRIPTION DRUGS IF YES:

We have some questions that we are asking you to complete on your own. If anything is unclear to you, please feel free to ask questions. Study representatives are available and happy to help you. Please take as much time as you need with each question. It is very important to us that you complete the entire questionnaire. Please find the most appropriate response to each question and circle the number for the answer you choose.

Thank you for your participation in this important study.

We are interested in learning more about women's health during their 40's and 50's. This first set of questions ask about your health and use of health care. B1. In general, would you say your health is excellent, very good, good, fair or poor? (PLEASE CIRCLE ONE RESPONSE.) **OVERHLT2** Excellent 1 Fair 4 Don't know-8 B2. Since your last study visit, how many different times did you stay in the hospital overnight or longer? ___ # TIMES **HOSPS**TA2 B3. Since your last study visit, about how many times did you see or talk to a doctor, nurse practitioner or other health care provider, regarding your own health? (Do not count health care providers that you have seen during a visit for this study.) # TIMES **MDTALK2** Since your last study visit, have you had: (PLEASE CIRCLE 1 FOR NO OR 2 FOR YES FOR EACH QUESTION.)

B4.	A Pap Smear (a routine medical test in which the doctor examines the cervix)?	1	2
	PAPSMEA2		
B5.	A breast physical examination (a doctor or medical assistant feels for lumps in the breast)? BRSTEXA2	1	2
B6.	A mammogram (an x-ray taken only of the breast by a machine that presses the breast against a glass plate)? MAMOGRA2	1	2

Dietary and behavioral therapies are often used to treat conditions or to maintain good health. Please tell us about any of these therapies you may have used.

D6. In the past 12 months, have you used any of the following for any reason? (CIRCLE ONLY ONE NUMBER FOR EACH)

		NO	YES
a.	Special diets or nutritional remedies, such as macrobiotic or vegetarian diets, or vitamin supplements or therapy?	1	2
	NUTRIRE2		
b.	Herbs or herbal remedies, such as homeopathy or Chinese herbs or teas?	1	2
	HERBREM2		
c.	Psychological methods, such as meditation, mental imagery, or relaxation techniques? PSYCMET2	1	2
d.	Physical methods, such as massage, acupressure, acupuncture, or chiropractic therapy? PHYSMET2	1	2
e.	Folk medicine or traditional Chinese medicine?	1	2
	FOLKMED2		
f.	Any others? OTHRTHE2 IF YES, please specify:	1	2
	SPECOTH2		

E1. These next questions ask about events that we sometimes experience in our lives. **Since your last study visit,** have you experienced any of the following: If you have not, circle 1 (NO). If you have and it was not at all upsetting, circle 2. If you have and it was somewhat upsetting circle 3. If you have and it was very upsetting and is still upsetting, circle 5. (PLEASE CIRCLE ONE ANSWER FOR EACH QUESTION.)

	NO	YES Not at all upsetting	YES Somewhat upsetting	YES Very upsetting	YES Very Upsetting and still upsetting
a. Started school, a training program, or new job? <u>STARTNE2</u>	1	2	3	4	5
b. Had trouble with a boss or conditions at work got worse? WORKTRB2	1	2	3	4	5
c. Quit, fired or laid off from a job? QUITJOB2	1	2	3	4	5
d. Took on a greatly increased work load at job? WORKLOA2	1	2	3	4	5
e. Husband/partner became unemployed? PRTUNEM2	1	2	3	4	5
f. Major money problems? MONEYPR2	1	2	3	4	5
g. Relations with husband/partner changed for the worse but without separation or divorce? WORSREL2	1	2	3	4	5
h. Were separated or divorced or a long-term relationship ended? RELATEN2	1	2	3	4	5
i. Had a serious problem with child or family member (other than husband/partner) or with a close friend? SERIPRO2	1	2	3	4	5
j. A child moved out of the house or left the area? CHILDMO2	1	2	3	4	5

We would like to ask you for some important information that will help us to understand your answers better. Please remember that all of your answers will of course remain confidential.

I1. What is your total family income (before taxes) from all sources within your household in the last year? (Circle the answer that is your <u>best</u> guess.)

INCOME2°	
LESS THAN \$19,999	1
\$20,000 TO \$49,999	2
\$50,000 TO \$99,999	
\$100,000 OR MORE	
REFUSED	
DON'T KNOW	

The next question deals with how you respond to your physical senses. For each item, please indicate the degree to which each statement is TRUE OF YOU in general.

J1. Please circle the number that corresponds to your answer for each statement below:

(CIRCLE ONLY ONE ANSWER FOR EACH QUESTION)

	Not at all True	A little bit true	Moderately true	Quite a bit true	Extremely true
a. I am often aware of various things happening within my body.	1	2	3	4	5
AWAREBO2					
b. Sudden loud noises really bother me.	1	2	3	4	5
NOISES2					
c. I hate to be too hot or too cold. HOTCOLD2	1	2	3	4	5
d. I am quick to sense the hunger contractions in my stomach. HUNGER2	1	2	3	4	5
e. I can't stand pain. <u>STNDPAI2</u>	1	2	3	4	5

SECTION K DELETED FROM QUESTIONNAIRE

[§] I.1 Income categories have been condensed from the original questionnaire

The following section will ask you about personal feelings. These questions are important, as our feelings may directly affect our health or influence how we respond to health issues.

L1. In your day-to-day life have you had the following experiences: (CIRCLE ONE ANSWER FOR EACH)

		Often	Sometimes	Rarely	Never
a.	You are treated with less courtesy than other people. COURTES2	1	2	3	4
b.	You are treated with less respect than other people. RESPECT2	1	2	3	4
c.	You receive poorer service than other people at restaurants	1	2	3	4
	or stores. POORSER2				
d.	People act as if they think you are not smart.	1	2	3	4
e.	People act as if they are afraid of you. AFRAIDO2	1	2	3	4
f.	People act as if they think you are dishonest. DISHONS2	1	2	3	4
g.	People act as if they're better than you are. BETTER2	1	2	3	4
h.	You or your family members are called names or insulted.	1	2	3	4
i.	You are threatened or harassed. HARASSE2	1	2	3	4
j.	People ignore you or act as if you are not there.	1	2	3	4

IGNORED2

IF YOU ANSWERED "OFTEN" OR "SOMETIMES", TO ONE OR MORE STATEMENTS IN L1, PLEASE ANSWER QUESTION L2.

L2. Were any of the following reasons why you "sometimes" or "often" had these experiences? (CIRCLE ONE ANSWER FOR EACH.)

a. Race	BCRACE2	NO 1	YES 2
b. Ethnicity	BCETHN2	1	2
c. Gender	BCGENDR2	1	2
d. Age	BCAGE2	1	2
e. Income Level	BCINCML2	1	2

This questionnaire covers material that is sensitive and personal. For some women, sexual activity is an important part of their lives, but for others, it is not. Everyone has different ideas on this subject. To help us understand how these matters affect women's lives and health, we would like you to answer the following questions from your own personal viewpoint. There are no right or wrong answers. Remember, confidentiality is assured. While we hope you are willing to answer all of the questions, if there are questions you would prefer not to answer, you are free to skip them. Please find the most appropriate response to each question, and circle the number for the answer you choose.

ADDITIONAL MEASURES COLLECTED

The following measures that were collected at Visit 02 have been included in the codebook:

SERUM HORMONE MEASURES

1. Variables for assays

Variable	Assay	Units
DHAS2	Dehydroepiandrosterone sulfate	ug/dL
E2AVE2*	Estradiol (see important note below)	pg/mL
FSH2	Follicle-stimulating hormone	mIU/mL
SHBG2	Sex hormone-binding globulin	nM
<u>T2</u>	Testosterone	ng/dL

^{*} IMPORTANT NOTE: There were originally two estradiol result variables because estradiol was run in duplicate. E2AVE2 is the within-person arithmetic average of the two estradiol variables.

2. Flags and other variables

Variable	Meaning	Codes
CYCDAY2	Day of cycle	n/a
FLGCV2	Both Estradiol results are > 20 pg/mL and the within- subject coefficient of variation (CV) is > 15%.	0=no, 1=yes
FLGDIF2	One or both Estradiol results \leq 20 pg/mL and the difference between them is > 10 pg/mL.	
	Note: Differences were found between some of the Estradiol duplicate measurements. The following guidelines were decided upon: 1. If both E2 values>20 pg/ml, CV must be ≤15%. 2. If one or both E2≤20 pg/ml, the two E2 results must agree within 10 pg/ml.	
	DATA WITH THESE FLAGS SHOULD BE OMITTED FROM DATA ANALYSES, OR USED WITH CAUTION IF INCLUDED IN ANALYSES.	

^{*1=}yes means flagged

3. Changes to the data:

Lower limit of detection (LLD). Hormone results below the LLD were recoded to a value of '.L'.

LLDs changed over time. The following LLDs were provided by the lab and applied to all samples:

Hormone	Time Window on hormone measurement corresponding to LLD	Lower Limit of Detection
DHEAS	~ Sep. 15, 1997	<1.52 ug/dL (Initial value)
	Sep. 16, 1997 ~ Jan. 14, 1999	<0.304 ug/dL
	Jan. 15, 1999 ~	<1.5 ug/dL
E2	~ Feb. 20, 2000	<1.0 pg/mL (Initial value)
	Feb. 21, 2000 ~ Aug. 27, 2001	<2.0 pg/mL
	Aug. 28, 2001 ~ May 03, 2009	<4.0 pg/mL
	May 04, 2009 ~	<7.0 pg/mL
FSH	~ Aug. 05, 1999	<1.05 mIU/mL (Initial value)
	Aug. 06, 1999 ~ Nov. 10, 1999	<1.0 mIU/mL
	Nov. 11, 1999 ~ Jul. 19, 2000	<0.7 mIU/mL
	Jul. 20, 2000 ~ Oct. 29, 2002	<0.6 mIU/mL
	Oct. 30, 2002 ~ Sep. 28, 2003	<0.5 mIU/mL
	Sep. 29, 2003 ~ Feb 20, 2006	<0.4 mIU/mL
	Feb 21, 2006 ~	<0.8 mIU/mL
SHBG	~ Aug. 05, 1999	<1.95 nM (Initial value)
	Aug. 06, 1999 ~ Oct. 31, 1999	<1.9 nM
	Nov. 01, 1999 ~ Mar. 22, 2006	<2.0 nM
	Mar. 23, 2006 ~	<3.2 nM
T	~ Jun. 04, 1998	<2.19 ng/dL (Initial value)
	Jun. 05, 1998 ~ Jun. 17, 1999	<2.2 ng/dL
	Jun. 18, 1999 ~	<2.0 ng/dL

BONE MINERAL DENSITY MEASURES

Five of the seven clinical sites did DXA bone scans on the spine and hip. The total bone mineral density scores had to be calibrated in order to apply machine change calibration correction factors.

Variable	Meaning	Codes
SPSCDAY2	Spine Scan Day	
SPSCTIM2	Spine Scan Time	
SPSCMOD2	Spine Scan Mode	5 = 2000 machine 11=4500 machine
HPSCDAY2	Hip Scan Day	
HPSCTIM2	Hip Scan Time	
HPSCMOD2	Hip Scan Mode	5 = 2000 machine 11=4500 machine
SPBMDT2	Total Spine BMD w/cross-calibration applied	
HPBMDT2	Total Hip BMD w/cross-calibration applied	
BMDFLG2	PI recommended for spine exclusion	0=no 1=yes

MENOPAUSAL STATUS MEASURES

Variable	Meaning	Codes
STATUS2	Menopausal Status	1 = Post by BSO (Bilateral Salpingo Oophorectomy) 2 = Natural Post
		3 = Late Peri 4 = Early Peri
		5 = Pre 6 = Pregnant/breastfeeding
		7 = Unknown due to HT use 8 = Unknown due to hysterectomy

STATUS2 and is pulled from another source that evaluated the menopause status related variables over time, and corrected inconsistencies via additional corroborating information. Menopause status is determined from questions on bleeding patterns, current hormone use, pregnancy, breastfeeding, hysterectomy, and oophorectomy. Menopause status is compared across visits, and no women were allowed to move backwards in status (e.g. early peri at Visit 08 could not be pre at Visit 09)

<u>Post by BSO</u> - women with both ovaries removed (Bilateral Salpingo Oophorectomy or BSO) prior to natural post menopause

Natural Post - women who had no bleeding in the 12 months prior to the visit

<u>Late Perimenopause</u> - women who had bleeding in the last 12 months prior to her visit but no bleeding in the past three months

<u>Early Perimenopause</u> - women who had bleeding in the last three months but who said their menstrual periods had become farther apart, closer together, more variable, or more regular

<u>Premenopausal</u> - women who reported bleeding in the past three months and who responded that their menstrual periods had stayed the same since their last visit

Pregnant/breastfeeding - women who reported a pregnancy since the last visit or are currently breastfeeding

<u>Unknown due to HT use</u> - pre- and perimenopausal women using hormones, including birth control pills, estrogen, and progestin, patches and a few vaginal hormones.

Unknown due to hysterectomy – women who reported hysterectomy without BSO prior to natural post

<u>LMPDAY2</u> is the number of days from baseline (Day 0) to the date of the last menstrual period at Visit 2. It is pulled from another source that evaluated the menopause status related variables over time, and corrected inconsistencies via additional corroborating information

RACE/ETHNICITY

RACE Participant race/ethnicity is provided from the Screener dataset:

Variable	Meaning	Codes
RACE	Race at Screener (Screener Q.33, modified)	1: Black/African American 2: Chinese/Chinese American 3: Japanese/Japanese American 4: Caucasian/ White Non-Hispanic 5: Hispanic
