The terms of use for this study can be found at: http://www.icpsr.umich.edu/icpsrweb/ICPSR/studies/30142/terms

Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Self-Administered Questionnaire Part A	31
Self-Administered Questionnaire Part B	55
Physical Measures	62
Cognitive Function Form	65
Additional Measures	73

DOCUMENTATION FOR THE PUBLIC-USE SWAN VISIT 04 DATASET

CHANGES IN THE 2018 DATA REFREEZE:

- A variable describing the race of participants (RACE) was added from the Screener dataset. See the Additional Measures section at the end of the codebook for more information.
- The race/ethnicity of one participant was originally mislabeled and has now been corrected. Race fields now read Caucasian, not Black, for this participant.
- If the interview was not completed, but the Self-A was completed, AGE was calculated based on the date the participant filled in the Self-A Questionnaire.
- Variables STATUS4 and LMPDAY4 have been updated and are pulled from another source that evaluated the
 menopause status related variables over time, and corrected inconsistencies via additional corroborating
 information. PLEASE NOTE: STATUS4 has been changed from the prior release to split the surgical category
 into 'Post by BSO (Bilateral Salpingo Oophorectomy)' and 'Unknown due to hysterectomy.' See the Additional
 Measures section at the end of the codebook for more information.
- For the Interview,
 - Job start and stop times (D3) were changed to military time format, and the AM/PM variables dropped.
 - The partner/spouse job title variable PARTNJO4 was dropped
 - Three participants had a drug name updated for Birth Control Pills (B11) or Estrogen Pills BB12)
 - Two participants' answers of "Yes (2)" to QB29.f (Had stroke since last visit?) were proved to be entry errors when questioned at a later visit. The corrected answers should be "No (1)" and were updated.
- For the Self-Administered Questionnaire Part A:
 - BEDTIMEA4 and GETPAMP4 that indicate AM/PM were restored to the dataset. Please note: If the AM/PM indicator is missing, the time was not converted to military time in the new variables BEDMIL4 & GETUPMIL4. Bed times and wake up times have been converted to SAS time variables. Please note that participants sometimes had confusion concerning 12:00 midnight as to whether that was AM or PM.
 - One participant had an incorrect completion date. This has been corrected.
- For the Self-Administered Questionnaire Part B:
 - 9 women either left the entire questionnaire blank or refused all items. Their forms should have been set to off protocol, and they should not have been included in the final frozen dataset. They have been removed, leaving a total of 2489 with Follow-Up 04 Self-B data.
 - Two participants had an incorrect date of completion, which has been corrected
- For Serum Hormone Measures dataset, the lower limit of detection (LLD) ranges have been updated. See the Additional Measures section below at the end of the codebook for more information.
- In the Cardiovascular Measures dataset, two samples from Visit 04 were moved to Visit 03, and one was moved from Visit 03 to Visit 04 because of mismatched dates.
- In the Physical Measures section, self-reported weights were included for 45 participants.
- Spine Bone Mineral Density changed slightly for 48 participants due to incorrect application of correction factors

1. Who is included in the public use dataset:

The dataset contains follow-up visit 4 information for the 3,302 women from the 7 clinical sites participating in the SWAN longitudinal study. The sites include Boston, MA, Pittsburgh, PA, Oakland and Los Angeles, CA, Detroit, MI, Newark, NJ, and Chicago, IL.

2. How this codebook is constructed:

Following this documentation section are copies of each of the questionnaires that were used at visit 4. A list of additional variables is also provided. The questionnaires include the variables available for public use next to the question in bold red uppercase underlined letters. Those variables not available for public use have a # before the variable and are in blue. Any special notes are indicated with footnotes at the bottom of the page.

The assigned participant ID has been replaced with a randomly generated SWANID in order to protect participant privacy. The *baseline* interview date is denoted as day 0 and is used as the basis for all other dates. All other questionnaires or data collected that have a date attached have been converted to the number of days from the baseline interview. For example, if the Visit 4 Self-Administered Questionnaire Part A was collected 4 years after the baseline interview, the day for the Self-Administered Part A would be day 1460 and the Baseline Interview would be day 0.

All variables for visit 4 have a 4 at the end of the variable name.

3. Missing data coding:

Missing codes are as follows: -1: not applicable, -7: refused, -8: don't know, and -9: missing.

4. Ways this data can be used and additional notes

Interview Questionnaire

In general, any 'Other, specify' text field is not included in the dataset.

- A social support score can be calculated from the questions in C.8.a-d after recoding them from a 1-5 range to a 0-4 range.
- o CES-D scores can be created from the questions in C.10.
- o A perceived stress score can be created from questions in C.9.
- The flag FORMFLG4 is set with a value of AIN for the seven participants who completed the abbreviated interview instead of the full interview.

Self-Administered Questionnaire Part A

A Self-A Amended Telephone Interview (PATI), comprised of key questions from the core Follow-up Self-Administered Questionnaire Part A, was administered at study visits in cases where the Self-Administered Questionnaire was not completed. Similarly, an Abbreviated Follow-up Interview (AINT), comprised of key questions from the core Annual Follow-up Interview and Self-Administered Questionnaire Part A, was administered for participants who are not willing to come in for a core study visit, but who were willing to give 10 or 15 minutes of their time to answer questions over the telephone. The flag FORMSAA4 delineates those who did the full questionnaire (SAA) from the 38 participants who did the abbreviated questionnaire (AIN), and the 3 that did the phone interview (PAT).

- The income question G.1 was condensed so that the income ranges were more broadly defined.
- Current smoking is defined as anyone who answered 'yes' to question B.10 (SMOKERE4) and an answer greater than 0 for B.10a (AVGCIGDA4).
- O Please note that only 2 subscales of the SF36 were created at visit 04: bodily pain and vitality. The SWAN investigators decided not to ask the questions related to the other 3 subscales at visit 04. These scores can be derived based on questions B.16-18 according to the SF-36 User's Manual. Responses may need to be reversed where necessary so that all items are positively scored. A higher value indicates better functioning. The Bodily Pain Score is calculated from questions B.16 and B.17. Item recoding depends on whether both questions were answered or one of the items has missing data. After recoding, all the items are positively scored so that a higher score indicates less pain. The SF-36 Vitality Score is calculated from questions B.18a-d. Questions B.18.a and B.18.b should be reversed so that all items are positively scored; for the resulting index a higher score indicates greater energy (and less fatigue).
- The flag FLGSAAV4 is set for the two participants who completed the guestionnaire after the 01/31/2002 cutoff.

Self-Administered Questionnaire Part B

The flag FLGSABV4 is set for the two participants who completed the questionnaire after the 01/31/2002 cutoff.

Physical Measures

 In addition to the variables on the form, BMI4 was also calculated as weight in kilograms divided by the square of height in meters.

Cognitive Function Form

- Individual and summary scores are available for the following tests: East Boston Memory Test (both the immediate and delayed recall of a story), Symbol Digits Modalities Test, and the Digits Backward Test.
- The flag FLGCOGV4 is set for the three participants who completed the questionnaire after the 01/31/2002 cutoff.
- Several special codes were used in this dataset to indicate why tests (and test items) were not administered:
 - 6 = Not administered because of physical impairment
 - 7 = Not administered because of verbal refusal
 - 8 = Not administered because of a behavioral reason
 - 9 = Not administered for some other reason

Additional Measures

Serum Hormone Measures

The Visit 4 hormone results are included. Of special note is that the estradiol assay was run in duplicate. The average (E2AVE4) is the within-person arithmetic average of the two assays. A flag indicates if the estradiol results differed by > 10 pg/mL where one or both results <= 20 pg/mL. Hormone results below the lower level of detection (LLD- see table in the Additional Measures section) were recoded to an .L value. Note that neither DHAS measurement nor FSH had any values below the LLD.

Cardiovascular Measures

- The Visit 4 cardiovascular results are included. A flag (FLAGSER4) indicates that the lipids were measured on serum rather than plasma because plasma was not available.
- The flag FLGCVRV4 is set for the three participants who completed the visit after the 1/31/2002 cutoff.

Bone Mineral Density Measures

Five of the seven sites participated in the bone study – Detroit, MI, Boston, MA, Oakland and Los Angeles, CA, and Pittsburgh, PA. Total spine and total hip bone mineral density (BMD) measures are provided.

Additional variables

Menopausal status (STATUS4) and last menstrual period day (LMPDAY4) are also provided. Participant race/ethnicity (RACE) is provided from the Source dataset. See pp 75-76 for descriptions.

Date of completion and other date variables (INTDAY4, SAADAY4, SABDAY4, PHYDAY4, HRMDAY4, CVRDAY4, SPSCDAY4, HPSCDAY4, LMPDAY4, SPEDAY4, COGDAY4, HYSTDAY4) are given in days from interview date at baseline. Note that for 5 participants, interview completion dates at baseline were not available and alternative dates were substituted either from the Self-Administered Questionnaire-A or Physical Measures completion dates at baseline.

Study of Women's Health Across the Nation

ANNUAL FOLLOW-UP INTERVIEW

SECTION A. GENERAL INFORMATION

IF BLOOD WAS DRAWN (A15 IS YES), GO TO B25. OTHERWISE GO TO B27.

In order to interpret your blood tests, we need to ask you the following questions.

We've just talked about your prescription medications, over-the-counter medications, vitamins, and minerals you have taken since your last study visit. What did you take in the last 24 hours?

[REVIEW SHADED COLUMNS AFTER RESPONDENT ANSWERS.

IF CURRENT MEDICATION USE REPORTED (YES TO ANY SHADED COLUMN IN B1b-B21b)
BUT NOT REPORTED HERE, PROBE FOR USE IN LAST 24 HOURS.]

j.	INADEQA4 I worry too much over something that does	1	2	3	4
	not matter. WORRYTO4				

H3. A number of statements that people use to describe themselves are given below. Read each statement and then circle the number that indicates **how you generally feel.**

		Almost Never	Sometimes	Often	Almost Always
a.	I feel infuriated when I do a good job and get a poor evaluation. INFURIA4	1	2	3	4
b.	It makes me furious when I am criticized in front of others. FURIOUS4	1	2	3	4
c.	I feel annoyed when I am not given recognition for doing good work. ANNOYED4	1	2	3	4
d.	I get angry when I'm slowed down by others' mistakes. GETANGR4	1	2	3	4

H4. Everyone feels angry or furious from time to time, but people differ in the ways they react when they are angry. A number of statements are listed below which people use to describe their reactions when they feel *angry* or *furious*. Read each statement and then fill in the circle with the number which indicates how *often* you *generally* react or behave in the manner described when you are feeling angry or furious. Remember that there are no right or wrong answers. Do not spend too much time on any one statement.

	When Angry or Furious	Almost Never	Sometimes	Often	Almost Always
a.	I express my anger. EXPRESS4	1	2	3	4
b.	I keep things in. KEEPIN4	1	2	3	4
c.	I pout or sulk. POUTSUL4	1	2	3	4
d.	I withdraw from people. WITHDRA4	1	2	3	4
e.	I make sarcastic remarks to others.	1	2	3	4
f.	SARCAST4 I do things like slam doors. SLAMDOO4	1	2	3	4
g.	I boil inside, but I don't show it. BOILINS4	1	2	3	4
h.	I argue with others. ARGUE4	1	2	3	4
i.	I tend to harbor grudges that I don't tell anyone about. GRUDGES4	1	2	3	4
j.	I strike out at whatever infuriates me. STRIKOU4	1	2	3	4
k.	I am secretly quite critical of others. CRITICA4	1	2	3	4
1.	I am angrier than I am willing to admit. ANGRIER4	1	2	3	4
m.	I say nasty things. NASTY4	1	2	3	4
n.	I'm irritated a great deal more than people are aware of. IRRITAT4	1	2	3	4
0.	I lose my temper. TEMPER4	1	2	3	4
p.	If someone annoys me, I'm apt to tell him or her how I feel. ANNOYSM4	1	2	3	4

H5. Here are some questions about what it is like to live in your neighborhood. By neighborhood, we mean the area around where you live and around your house. It <u>may</u> include places you shop, religious or public institutions, or a local business district. It is the general area around your house where you might perform routine tasks, such as shopping, going to the park, or visiting with neighbors. For each of these statements, please indicate whether you: Strongly agree, Agree, Disagree, or Strongly disagree. (PLEASE CIRCLE ONE FOR EACH LINE.)

		Strongly agree	Agree	Disagree	Strongly disagree
a.	This is a close-knit neighborhood.	1	2	3	4
b.	CLOSKNI4 People around here are willing to help their neighbors.	1	2	3	4
c.	WILLHEL4 People in this neighborhood generally don't get along with each other.	1	2	3	4
d.	GETALON4 People in this neighborhood can be trusted.	1	2	3	4
e.	TRUSTED4 People in this neighborhood do not share the same values. SHAREVA4	1	2	3	4

Thank you for your time. This ends <u>this</u> questionnaire. Please give it to the study personnel.

This questionnaire covers material that is sensitive and personal. For some women, sexual activity is an important part of their lives, but for others, it is not. Everyone has different ideas on this subject. To help us understand how these matters affect women's lives and health, we would like you to answer the following questions from your own personal viewpoint. There are no right or wrong answers. Remember, confidentiality is assured. While we hope you are willing to answer all of the questions, if there are questions you would prefer not to answer, you are free to skip them. Please find the most appropriate response to each question, and circle the number for the answer you choose.

B1.	How important is s	sex in your life?	(CIRCLE ONE NUM	BER) <u>IMPOR</u>	SE4

Not	Less than	Once or	About once	More than	Daily
at all	once a	Twice a	a week	once a	
	Month	Month		week	

MASTURB4

We have a few final questions. We are asking these questions to gather information about the risk of acquiring HIV/AIDS and other sexually transmitted diseases. We understand that these questions are very personal. There are many women in this study with a wide range of experiences. We ask these questions of all participants in this study. Your answers are important to this research study and will be kept confidential.

	B14.	Thinking back,	with how many men !	have you had intercour	se in the past 10	years? MEN10YR 4
--	------	----------------	---------------------	------------------------	-------------------	-------------------------

	Zero	1	(GO TO B17)
		2	,
	Two	3	
	Three	4	
	Four - t	en5	
	More th	nan 10	
	B14b.	Over the past ten years, have you typically used a condom with you	ur male partner(s)? CONDM104
		NO1	
		YES	
B15.	Over the	e past 6 months, how many men have you had intercourse with?	MEN6MOS4
	Zero	1	(GO TO B17)
	One	2	
	Two	3	
	Three	4	
	Four - t	en	

B16. In the past 6 months, did you or your male partner(s) regularly use any method (including abstinence) to keep from catching sexually transmitted diseases such as genital herpes, chlamydia or HIV/AIDS?

METHOD4

NO	1
YES	2

More than 10......6

B16b. Which of the following methods have you used regularly? (CIRCLE ONLY ONE ANSWER ON EACH LINE)

			NO	YES
a.	Condom	CONDOM4	1	2
b.	Diaphragm	DIAPHRA4	1	2
c.	Spermicide jelly, foam or cream	SPERMIC4	1	2
d.	Sponge	SPONGE4	1	2
e.	Abstinence/no sexual intercourse	ABSTINC4	1	2
f.	Other (specify)	METHOTH4	1	2
		METHSPE4		

B17. What are your chances of getting HIV (AIDS virus)? (CIRCLE ONLY ONE ANSWER)

HIVAIDS4

High	. 1
Medium	
Low	
None	4
Already have the virus	. 5

Thank you for helping us with this important research study.

Please place the completed questionnaire in the envelope provided, seal it, and give it to the study personnel.

EAST BOSTON MEMORY TEST

I have some questions that involve remembering things and concentrating. Please try your best.

INTERVIEWER NOTE: RECORD ALL ANSWERS PROVIDED BY THE PARTICIPANT. ALL RESPONSES MUST BE GIVEN **WITHOUT** ANY AID TO MEMORY.

I. IMMEDIATE RECALL OF STORY

Now I would like to ask you to try to remember a short story.

First, I'm going to read you a short story and when I'm through, I'm going to wait a few seconds and then ask you to tell me as much as you can remember.

The story is:

Three children were alone at home and the house caught on fire. A brave fireman managed to climb in a back window and carry them to safety. Aside from minor cuts and bruises, all were well.

WAIT FIVE SECONDS, THEN SAY: Please tell me the story.

RECORD RESPONSE VERBATIM

IMEDTHR4 IMEDCH14 IMEDHOU4 IMEDFIR4 IMEDFMN4 IMEDCLM4 IMEDCLM4 IMEDCH24 IMEDRES4 IMEDMIN4 IMEDWEL4

SCORE EACH IDEA AS PRESENT OR ABSENT

Children	1	0
Rescued	1	0
Minor	1	0
Injuries	1	0
Everyone	1	0
Well	1	0
Total Ideas	TOTIDE14	

Idea	Present	Absent

B. SYMBOL DIGIT MODALITIES TEST

Now, we are going to try something a little different.

PLACE THE LAMINATED TEST FORM IN FRONT OF RESPONDENT RESPONSES ON A BLANK SDMT FORM.

POINT TO KEY AT TOP OF PAGE AND SAY: Look at these boxes. Notice that each box has a little mark in the upper part and a number in the lower part. Each mark has its own number. Now look down here. [POINT]

Notice that the boxes on the top have marks, but the boxes on the bottom are empty. I want you to call out the number that goes with each mark. For example, look at the first mark and then look at the key. [POINT]

The number 1 goes with the first mark. So you call out the number 1 for the first box.

POINT OUT NEXT 2 ANSWERS: A 5 goes with this mark, and a 2 goes with this mark.

Now what number belongs in the next box?

POINT TO BOX IF NECESSARY. RECORD RESPONSE.

IF RESPONSE IS CORRECT, SAY: Good. You have the idea.

IF RESPONSE IS INCORRECT, SAY: No, that is a 1. AND POINT TO THE APPROPRIATE SYMBOL/ITEM PAIR IN KEY.

Now, for practice, tell me the numbers that belong in the rest of the boxes up to this line.

DRAW OVER THE DOUBLE LINE IN THE PRACTICE ROW.

Use your finger as you move along the row so you don't get lost.

<u>RECORD RESPONSES</u> TO REMAINING PRACTICE ITEMS (ANSWERS: 3 6 2 4 1 6). IMMEDIATELY CORRECT EACH ERROR AS ABOVE. RECORD "0" FOR NON-NUMERIC RESPONSES.

REINSTRUCT AND/OR ENCOURAGE GUESSING IF RESPONDENT IS CONFUSED ON THE PRACTICE ROW; E.G., If you don't know, guess a number from 1 to 9, and I'll tell you if you're right or wrong.

AFTER PRACTICE ROW IS COMPLETED, SAY:

Good, you know how to do them. I have some more of these I want you to do. When I tell you to begin start here [POINT TO THE FIRST SQUARE TO RIGHT OF DOUBLE LINE] and call out the numbers just like you have been doing until I say 'Stop.' If you make a mistake, tell me what you think the correct answer is. Do not skip any boxes and work as quickly as you can. Ready? Begin.

START TIMER AT "BEGIN," ALLOW 90 SECONDS, AND THEN SAY: Stop. RECORD RESPONSES.

DO NOT REINSTRUCT FURTHER; IF PRESSED, SAY: Just do the best you can.

C. SYMBOL DIGIT MODALITIES TEST SCORING:

Ι.	Admi	ınıstra	ation status (1, 6-9)		
	1	=	test administered		SDMTSTA4
	6	=	Not administered because of physic	cal impairment	SDMTSPE4
	7	=	Not administered because of verba	l refusal	
	8	=	Not administered because of a beha	avioral reason	
	9	=	Not administered for some other re	ason	
2	Maran	یہ سے ما	f Test Administrations	CDMT A DMA	
2.	Num	ber o	1 Test Administrations	SDMTADM4	
3.	Num	ber of	f Practice Items Correct (0-7)	SDMTPRA4	
4.	Num	ber o	f Test Items Attempted (0-110)	SDMTATM4	
5	Num	her o	f Test Items Correct (0-110)	SDMTCOR4	

D. DIGITS BACKWARD

<u>ADMINISTRATION:</u> MAKE SURE YOU HAVE RESPONDENT'S ATTENTION BEFORE PRESENTING EACH ITEM. READ DIGITS CLEARLY AT ONE-PER-SECOND RATE, LETTING VOICE PITCH DROP/RISE ON LAST DIGIT. PRESENT EACH ITEM ONLY ONCE. IF REPETITION IS REQUESTED, SAY: Just tell me what you can remember.

DISCONTINUE AFTER TWO CONSECUTIVE ERRORS <u>AT A GIVEN ITEM LENGTH</u> (e.g., IF BOTH 4a AND 4b ARE ERRORS). IF REQUESTED, REINSTRUCT: After I say the numbers, you are to say them backwards.

IF RESPONDENT REPEATS THE NUMBERS FORWARD, SCORE THE RESPONSE AS AN ERROR (0) AND REINSTRUCT AS ABOVE. ONLY ONE UNREQUESTED REINSTRUCTION IS PERMITTED.

SCORING: CLASSIFY EACH RESPONSE AS ERROR (0) OR CORRECT (1) AND ENTER THE SCORE IN THE SPACE PROVIDED. FOR ITEMS NOT ADMINISTERED DUE TO BRANCHING OR DISCONTINUATION RULE, PLACE AN "-1" IN THE SPACE PROVIDED; FOR ITEMS NOT ADMINISTERED FOR ANY OTHER REASON, ENTER THE APPROPRIATE CODE: 6 = PHYSICAL IMPAIRMENT; 7 = VERBAL REFUSAL; 8 = BEHAVIORAL REASON; 9 = OTHER REASON.

<u>INSTRUCTION:</u> Now, let's move on to another part. I am going to say some numbers. When I stop, I want you to say them backwards.

ITEM RESPONSE CODE

P1. Try this one : 2 - 8 - 3."

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF <u>ERROR</u> (0), SAY: No, I said 2 - 8 - 3, so to say them backwards, you would need to say 3 - 8 - 2.

[GO TO P2]

P2. Try this one. Remember, you are to say them backwards. Ready? 1-5-8.

IF CORRECT (1), SAY: That's right. Now I have some more numbers. Remember,

[GO TO 1a]

you are to say them backwards.

IF <u>ERROR</u> (0), SAY: No, I said 1 - 5 - 8, so to say them backwards, you would need to say 8 - 5 - 1. Now I have some more numbers. Remember, you are to say them backwards.

DIGITS BACKWARD (CONTINUED)

1 = Correct; 0 = Error

-1 = Not Administered due to discontinuation rule

6 = Not administered because of physical impairment

7 = Not administered because of verbal refusal

8 = Not administered because of behavioral reason

9 =No administered for some other reason

Item			Response Code
1a.	Ready? 5 – 1	DIGIT1A4	
1b.	Here is another: $3 - 8$	DIGIT1B4	
2a.	Here is another: $4-9-3$	DIGIT2A4	
2b.	Here is another: $5-2-6$	DIGIT2B4	
3a.	Here is another: $3-8-1-4$	DIGIT3A4

ADDITIONAL MEASURES COLLECTED

The following measures that were collected at Visit 04 have been included in the codebook:

SERUM HORMONE MEASURES

1. Variables for assays

Variable	Assay U	
DHAS4	Dehydroepiandrosterone sulfate	ug/dL
E2AVE4*	Estradiol (see important note below) pg/mL	
FSH4	Follicle-stimulating hormone mIU/r	
SHBG4	Sex hormone-binding globulin nM	
<u>T4</u>	Testosterone ng/d	
TSH4	Thyroid stimulating hormone	uIU/mL

^{*} IMPORTANT NOTE: There were originally two estradiol result variables because estradiol was run in duplicate. E2AVE2 is the within-person arithmetic average of the two estradiol variables.

2. Flags and other variables

Variable	Meaning	Codes
CYCDAY4	Day of cycle	n/a
FLGCV4	Both Estradiol results are > 20 pg/mL and the within- subject coefficient of variation (CV) is > 15%.	0=no, 1=yes
FLGDIF4	One or both Estradiol results ≤ 20 pg/mL and the difference between them is > 10 pg/mL.	
	Note: Differences were found between some of the Estradiol duplicate measurements. The following guidelines were decided upon: 1. If both E2 values>20 pg/ml, CV must be ≤15%. 2. If one or both E2≤20 pg/ml, the two E2 results must agree within 10 pg/ml.	
	DATA WITH THESE FLAGS SHOULD BE OMITTED FROM DATA ANALYSES, OR USED WITH CAUTION IF INCLUDED IN ANALYSES.	

^{*1=}yes means flagged

3. Changes to the data:

- Lower limit of detection (LLD). Hormone results below the LLD were recoded to a value of '.L'.
- LLDs changed over time. The following LLDs were provided by the lab:

Hormone	Time Window on hormone measurement	Lower Limit of Detection
	corresponding to LLD	
DHEAS	~ Sep. 15, 1997	<1.52 ug/dL (Initial value)
	Sep. 16, 1997 ~ Jan. 14, 1999	<0.304 ug/dL
	Jan. 15, 1999 ~	<1.5 ug/dL
E2	~ Feb. 20, 2000	<1.0 pg/mL (Initial value)
	Feb. 21, 2000 ~ Aug. 27, 2001	<2.0 pg/mL
	Aug. 28, 2001 ~ May 03, 2009	<4.0 pg/mL
	May 04, 2009 ~	<7.0 pg/mL
FSH	~ Aug. 05, 1999	<1.05 mIU/mL (Initial value)
	Aug. 06, 1999 ~ Nov. 10, 1999	<1.0 mIU/mL
	Nov. 11, 1999 ~ Jul. 19, 2000	<0.7 mIU/mL
	Jul. 20, 2000 ~ Oct. 29, 2002	<0.6 mIU/mL
	Oct. 30, 2002 ~ Sep. 28, 2003	<0.5 mIU/mL
	Sep. 29, 2003 ~ Feb 20, 2006	<0.4 mIU/mL
	Feb 21, 2006 ~	<0.8 mIU/mL
SHBG	~ Aug. 05, 1999	<1.95 nM (Initial value)
	Aug. 06, 1999 ~ Oct. 31, 1999	<1.9 nM
	Nov. 01, 1999 ~ Mar. 22, 2006	<2.0 nM
	Mar. 23, 2006 ~	<3.2 nM
T	~ Jun. 04, 1998	<2.19 ng/dL (Initial value)
	Jun. 05, 1998 ~ Jun. 17, 1999	<2.2 ng/dL
	Jun. 18, 1999 ~	<2.0 ng/dL
TSH	~ Sep. 24, 2000	<0.03 uIU/mL (Initial value)
	Sep. 25, 2000 ~ Jun. 21, 2006	<0.13 uIU/mL
	Jun. 22, 2006 ~ Mar. 26, 2007	<0.011 uIU/mL
	Mar. 27, 2007 ~	<0.01 uIU/mL

CARDIOVASCULAR MEASURES

1. Variables for assays

	Assay	Units
Variable		
CHOLRES4	Total cholesterol	mg/dl
TRIGRES4	Triglycerides	mg/dl
LDLRESU4	Low-density lipoprotein cholesterol (estimated)	mg/dl
HDLRESU4	High density lipoprotein cholesterol	mg/dl
GLUCRES4	Glucose	mg/dl
INSURES4	Insulin	uIU/ml
PAIRESU4	PAI-1	ng/ml
TPARESU4	tPA	ng/ml
LPARESU4	Lipoprotein Lp(a)	mg/dl
APOARES4	Apolipoprotein A-1	mg/dl
APOBRES4	Apolipoprotein B	mg/dl
CRPRESU4	C-reactive protein	mg/l

2. Flags and other variables

Variable	Meaning	Codes
FLAGSER4	Flag to indicate that lipids were measured on serum rather	0=no,
	than plasma because plasma was not available. Lipids for these subjects were <u>not</u> set to missing.	1=yes
FLGCVRV4	Flag to indicate the sample was collected after the cut-off	0=no,
	date for Visit 1 (01/31/2002)	1=yes

^{*1=}yes means flagged

3. Changes to the data:

- <u>Non-fasting Triglycerides, Insulin, & Glucose -</u> If women were not fasting, triglycerides, insulin and glucose were set to missing in the frozen data set because these assays are not valid for non-fasting samples.
- <u>Estimated vs. Direct LDL</u>. LDL is estimated using the Friedewald equation for all women with triglycerides below 400 mg/dl. If triglycerides exceed 400 mg/dl, LDL is set to missing.
- <u>Serum lipids</u>. A few subjects had their lipids measured from serum rather than plasma. The results were left as is but subjects were flagged (FLAGSER1=1).

BONE MINERAL DENSITY MEASURES

Five of the seven clinical sites did DXA bone scans on the spine and hip. The total bone mineral density scores had to be calibrated in order to apply machine change calibration correction factors.

Variable	Meaning	Codes
SPSCDAY4	Spine Scan Day	
SPSCTIM4	Spine Scan Time	
SPSCMOD4	Spine Scan Mode	5 = 2000 machine 11=4500 machine
HPSCDAY4	Hip Scan Day	
HPSCTIM4	Hip Scan Time	
HPSCMOD4	Hip Scan Mode	5 = 2000 machine
		11=4500 machine
SPBMDT4	Total Spine BMD w/cross-calibration applied	
HPBMDT4	Total Hip BMD w/cross-calibration applied	

MENOPAUSAL STATUS MEASURES

Variable	Meaning	Codes
STATUS4	Menopausal Status	1 = Post by BSO (Bilateral Salpingo Oophorectomy)
		2 = Natural Post
		3 = Late Peri
		4 = Early Peri
		5 = Pre
		6 = Pregnant/breastfeeding
		7 = Unknown due to HT use
		8 = Unknown due to hysterectomy

<u>STATUS4</u> represents menopausal status. Menopause status is determined from questions on bleeding patterns, current hormone use, pregnancy, breastfeeding, hysterectomy, and oophorectomy. Menopause status is compared across visits, and no women were allowed to move backwards in status (e.g. early peri at Visit 08 could not be pre at Visit 09)

<u>Post by BSO</u> - women with both ovaries removed (Bilateral Salpingo Oophorectomy or BSO) prior to natural post menopause

Natural Post - women who had no bleeding in the 12 months prior to the visit

<u>Late Perimenopause</u> - women who had bleeding in the last 12 months prior to her visit but no bleeding in the past three months

<u>Early Perimenopause</u> - women who had bleeding in the last three months but who said their menstrual periods had become farther apart, closer together, more variable, or more regular

<u>Premenopausal</u> - women who reported bleeding in the past three months and who responded that their menstrual periods had stayed the same since their last visit

<u>Pregnant/breastfeeding</u> – women who reported a pregnancy since the last visit or are currently breastfeeding <u>Unknown due to HT use</u> - pre- and perimenopausal women using hormones, including birth control pills, estrogen, and progestin, patches and a few vaginal hormones.

Unknown due to hysterectomy – women who reported hysterectomy without BSO prior to natural post

<u>LMPDAY4</u> is the number of days from baseline (Day 0) to the date of the last menstrual period at Visit 04. It is pulled from another source that evaluated the menopause status related variables over time, and corrected inconsistencies via additional corroborating information

RACE/ETHNICITY

RACE Participant race/ethnicity is provided from the Screener dataset:

Variable	Meaning	Codes
RACE	Race at Screener (Screener Q.33, modified)	1: Black/African American 2: Chinese/Chinese American 3: Japanese/Japanese American 4: Caucasian/ White Non-Hispanic 5: Hispanic
