Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Physical Measures	55
Cognitive Function Form	58
Bioimpedance Measures	68
Additional Measures	72

DOCUMENTATION FOR THE PUBLIC-USE SWAN VISIT 07 DATASET

CHANGES IN THE 2018 DATA REFREEZE:

- Additional participant data has become available for Visit 7 (n=86) that was not present in the previous version of this dataset. These data have now been added and are included in the 2017 data refreeze.
- A variable describing the race of participants (RACE) was added from the Screener dataset. See the Additional Measures section at the end of the codebook for more information.
- The race/ethnicity of one participant was originally mislabeled and has now been corrected. Race fields now read Caucasian, not Black, for this participant.
- If the interview was not completed, but the Self-A was completed, AGE was calculated based on the date the participant filled in the Self-A Questionnaire.
- Variables STATUS7 and LMPDAY7 have been updated and pulled from another source that evaluated the
 menopause status related variables over time, and corrected inconsistencies via additional corroborating
 information. PLEASE NOTE: STATUS4 has been changed from the prior release to split the surgical category
 into 'Post by BSO (Bilateral Salpingo Oophorectomy)' and 'Unknown due to hysterectomy.' See the Additional
 Measures section at the end of the codebook for more information.
- For the Interview dataset:
 - Job start and stop times (D3) were changed to military time format, and the AM/PM variables dropped.
 - One participant reported the last menstrual period off by one year (6/2003 changed to 6/2002). This has been corrected.
 - Three participants' answers of "Yes (2)" to QD1.f (Had stroke since last visit?) were proved to be entry errors when questioned at a later visit. The corrected answers should be "No (1)" and were updated.
- For the Self-Administered Questionnaire Part A, one completion date was incorrect and has been updated (SAADAY7).
- The weight for one participant was corrected, and the height for another participant was also corrected. Please note that the change in height caused changes in bioimpedance created variables.
- For Serum Hormone Measures dataset, the lower limit of detection (LLD) ranges have been updated. See the Additional Measures at the end of the codebook for more information.
- For the Cognitive Assessment, two sets of scores do not add appropriately by reporting a number of test items correct (SDMTCORR) greater than the number of test items attempted (SDMTATMP). This should not be possible but site queries confirmed the values so they remain in the dataset.
- Spine Bone Mineral Density changed slightly for 44 participants due to incorrect application of correction factors

1. Who is included in the public use dataset:

The dataset contains follow-up visit 7 information for the 3,302 women from the 7 clinical sites participating in the SWAN longitudinal study. The sites include Boston, MA, Pittsburgh, PA, Oakland and Los Angeles, CA, Detroit, MI, and Chicago, IL. Data was not collected from New Jersey for this visit.

2. How this codebook is constructed:

Following this documentation section are copies of each of the questionnaires that were used at visit 7. A list of additional variables is also provided. The questionnaires include the variables available for public use next to the question in bold red uppercase underlined letters. Those variables not available for public use have a # before the variable and are in blue. Any special notes are indicated with footnotes at the bottom of the page.

The assigned participant ID has been replaced with a randomly generated SWANID in order to protect participant privacy. The *baseline* interview date is denoted as day 0 and is used as the basis for all other dates. All other questionnaires or data collected that have a date attached have been converted to the number of days from the baseline interview. For example, if the Visit 7 Self-Administered Questionnaire Part A was collected 7 years after the baseline interview, the day for the Self-Administered Part A would be day 2555 and the Baseline Interview would be day 0.

All variables for visit 7 have a 7 at the end of the variable name.

3. Missing data coding:

Missing codes are as follows: -1: not applicable, -7: refused, -8: don't know, and -9: missing. Documentation

4. Ways this data can be used and additional notes

Interview Questionnaire

In general, any 'Other, specify' text field is not included in the dataset.

- CES-D scores can be created from the questions in F.3.
- A perceived stress score can be created from guestions in F.2.
- In depth complementary and alternative medicine questions are asked in questions C.1 through C.21. Whereas visit 6 had the questions as part of the self-administered questionnaire, this visit included the questions in the interview portion of the visit.
- The flag FLGINTV7 is set for the 3 participants who completed the questionnaire before visit 7 began (5/15/2003).
- Several form versions of the interview could be administered, depending on the amount of time available or the location of the visit. The flag FORMINT7 was set to indicate which version of the interview was administered:
 - a) FUI indicates participants that completed the full interview.
 - b) AINT (Abbreviated FU interview) (94 participants) completed an abbreviated interview in combination with either an abbreviated or full Self-Administered Part A form.
 - c) AFUI (Abbreviated Plus FU Interview) (21 participants) completed a new abbreviated form of the interview made available with visit 7 that comprised key questions from the interview and Self-Administered Questionnaire Part A.
 - d) OFUI (One Hour Abbreviated Follow-up Interview) (24 participants) completed another new abbreviated form of the interview made available with visit 7 that comprised key questions from the interview and Self-Administered Questionnaire Part A where the participant said they had one hour available.

Self-Administered Questionnaire Part A

A Self-A Amended Telephone Interview (PATI), comprised of key questions from the core Follow-up Self-Administered Questionnaire Part A, was administered at study visits in cases where the Self-Administered Questionnaire was not completed. Similarly, an Abbreviated Follow-up Interview (AINT), comprised of key questions from the core Annual Follow-up Interview and Self-Administered Questionnaire Part A, was administered for participants who are not willing to come in for a core study visit, but who were willing to give 10 or 15 minutes of their time to answer questions over the telephone. Two new abbreviated versions of the Self-A (AFUI and OFUI) are described above. The flag FORMSAA7 delineates those who did the full questionnaire (SAA) from the 80 participants who did the abbreviated questionnaire (AIN), the 20 that did the phone interview (PAT), the 21 that did the abbreviated plus follow-up interview (AFU) and the 16 that did the one hour abbreviated follow-up (OFU).

- The income guestion (E.1) was condensed so that the income ranges were more broadly defined.
- Current smoking is defined as anyone who answered 'yes' to question B.9 (SMOKERE7) and an answer greater than 0 for B.9a (AVGCIGDA7).
- O Positive and Negative Affect Schedule (PANAS) Scores can be derived from questions F.1.a through F.1.t. A subset of the participants answered the Japanese version, which has 22 culturally appropriate items rather than the 20 items asked on the English version. There is no direct correlation between the two versions, so all Japanese items have been set to missing. In addition, question F.1.b has been set to missing because 'disinterested' was on the form, but the correct PANAS term is 'distressed.' It is suggested that the raw 9 item negative affect score, when multiplied by 1.112, can be made comparable to the positive affect score and the outcomes found in the literature.
- Spielberger Trait Anxiety Inventory can be calculated from questions G.1.a-j. This is normally a 20-item scale, but SWAN uses only 10 items. A score can be derived by reversing applicable questions so that all items are positively scored, and then summing the items. A higher total value indicates high trait anxiety.
- o Interpersonal Mistreatment and Discrimination Scale Factors can be calculated from the items in H.1.a-j.
- The Hopelessness Scale from the Kuopio Ischemic Heart Disease Study can be calculated from questions J.1.a and J.1.b. These items are reverse-coded and summed to create a hopelessness score.
- The flag FLGSAAV7 is set for the 2 participants who completed the questionnaire after the 03/21/2005 cutoff, and also for the seven participants that completed the questionnaire before Visit 7 began (5/13/2003).

Physical Measures

- In addition to the variables on the form, BMI7 was also calculated as weight in kilograms divided by the square of height in meters.
- The flag FORMPHY7 is set for the participants who completed either the full physical (PHY), abbreviated interview (AIN), or the phone interview (PAT). No physical measures were performed for the abbreviated or phone interview (AIN and PAT); however, self-reported weight was collected on the abbreviated interview.

Cognitive Function Form

- Individual and summary scores are available for the following tests: East Boston Memory Test (both the immediate and delayed recall of a story), Symbol Digits Modalities Test, Faces (both immediate and delayed recall) and the Digits Backward Test.
- The flag FLGCOGV7 is set for the three participants who completed the questionnaire before Visit 7 began (5/15/2003).
- Several special codes were used in this dataset to indicate why tests (and test items) were not administered:
 - 6 = Not administered because of physical impairment
 - 7 = Not administered because of verbal refusal
 - 8 = Not administered because of a behavioral reason
 - 9 = Not administered for some other reason
 - 10 = Administered but not according to protocol

Additional Measures

Several variables pertaining to the blood draw (serum hormone and cardiovascular measures) that were part of the follow-up interview were moved to a separate questionnaire. Those variables are now included in this part of the data dictionary.

Serum Hormone Measures

The Visit 7 hormone results are included. Of special note is that the estradiol assay was run in duplicate. The average (E2AVE7) is the within-person arithmetic average of the two assays. A flag indicates if the estradiol results differed by > 10 pg/mL where one or both results <= 20 pg/mL. Hormone results below the lower level of detection (LLD- see table in the Additional Measures section) were recoded to an .L value.

Cardiovascular Measures

The Visit 7 cardiovascular results are included. A flag (FLAGSER7) indicates that the lipids were measured on serum rather than plasma because plasma was not available. Fibrinogen, Factor VII, and Lipoprotein A-1 were only run on half the participants.

Bone Mineral Density Measures

Five of the seven sites participated in the bone study – Detroit, MI, Boston, MA, Oakland and Los Angeles, CA, and Pittsburgh, PA. Total spine and total hip bone mineral density (BMD) measures are provided.

Bioimpedance Measures

Body composition was measured using bioimpedance equipment. Percent body fat (equation provided by Dr. MaryFran Sowers), skeletal muscle mass (Janssen, 2000), fat free mass, total body water, and percent body fat (all provided by RJL Systems and validated using NHANES III data (Chumlea, 2002)) are also provided. MISSPHY7 flags where missing physical measures caused the created variables to be missing, and MISSCON7 flags where conductance was missing. A flag (FLAGSRP7) indicates where self-reported physical measures were used in calculations.

Additional variables

Menopausal status (STATUS7) and last menstrual period day (LMPDAY7) are also provided. Participant race/ethnicity (RACE) is provided from the Screener dataset. See the Additional Measures section at the end of the codebook for descriptions.

Date of completion variables (INTDAY7, SAADAY7, SABDAY7, PHYDAY7, HRMDAY7, CVRDAY7, SPSCDAY7, HPSCDAY7, SPEDAY7, COGDAY7, BIODAY7, CAMDAY7, HYSTDAY7, LMPDAY7, HORMDAY7) are given in days from interview date at baseline. Note that for 5 participants, interview completion dates at baseline were not available and alternative dates were substituted either from the Self-Administered Questionnaire-A or Physical Measures completion dates at baseline.

The next few questions focus on some other personal aspects of your life

F1. Thinking about your quality of life at the present time, I'd like you to give it a rating where 0 represents the worst possible quality for you and 10 represents the best possible quality for you. [HAND RESPONDENT CARD "G."] Looking at this line, how would you rate your overall quality of life at the present time? Choose a number between 0 and 10.

QLTYLIF7

F2. I would now like to ask you about your feelings over the past two weeks. Tell me how often you have felt or thought this way. [HAND RESPONDENT CARD "H" AND READ RESPONSE CATEGORIES]

	*[READ STEM INSTRUCTIONS] In the past two weeks you have:	Never	Almost Never	Sometimes	Fairly Often	Very Often
*a.	Felt unable to control important things in your life? CONTROL7	1	2	3	4	5
*b.	Felt confident about your ability to handle your personal problems? ABILITY7	1	2	3	4	5
c.	Felt that things were going your way? YOURWAY7	1	2	3	4	5
d.	Felt difficulties were piling so high that you could not overcome them? PILING7	1	2	3	4	5

F3. I am going to read you a list of ways you might have felt or behaved recently. Please tell me how often you have felt or behaved **this way during the past week**. [HAND RESPONDENT CARD "I" AND READ RESPONSE CATEGORIES]

* [R	EAD STEM INSTRUCTIONS]	Rarely or none of the time (less than 1 DAY)	Some or a little of the time (1-2 DAYS)	Occasionally or a moderate amount of the time (3-4 DAYS)	Most or all of the time (5-7 DAYS)
* a.	I was bothered by things that bother me	usually don't BOTHER7	1	2	3	4
*b.	I did not feel like eating; my poor	appetite was APPETIT7	1	2	3	4

B. EAST BOSTON MEMORY TEST I

I have some questions that involve remembering things and concentrating. Please try your best.

INTERVIEWER NOTE: RECORD ALL ANSWERS PROVIDED BY THE PARTICIPANT. ALL RESPONSES MUST BE GIVEN **WITHOUT** ANY AID TO MEMORY.

I. IMMEDIATE RECALL OF STORY

Now I would like to ask you to try to remember a short story.

First, I'm going to read you a short story and when I'm through, I'm going to wait a few seconds and then ask you to tell me as much as you can remember.

The story is:

Three children were alone at home and the house caught on fire. A brave fireman managed to climb in a back window and carry them to safety. Aside from minor cuts and bruises, all were well.

WAIT FIVE SECONDS, THEN SAY: Please tell me the story.

C. FACES I

Now we will move to another exercise.

HAVE **STIMULUS BOOKLET I** READY. RECORDING OF THE PARTICIPANT'S RESPONSES AND SCORING FOR FACES I ARE DONE ON THE FOLLOWING PAGE. THERE IS NOTHING TO WRITE DOWN WHILE PRESENTING THE INITIAL SET OF FACES (1-24). THE PRIMARY MEASURE OF PERFORMANCE IS THE NUMBER OF FACES CORRECTLY IDENTIFIED.

READ THE <u>INITIAL INSTRUCTION</u>: "I am going to show you some pictures of faces, one at a time. Look at each face carefully and remember what it looks like. Remember each one."

EXPOSE EACH PHOTOGRAPH (1-24) FOR 2 SECONDS AND SAY, "Remember this one."

WHEN ALL HAVE BEEN PRESENTED READ THE <u>NEXT INSTRUCTION</u>. "Now I am going to show you some more pictures of faces, one at a time. I want you to look at the face on each page carefully. Say "Yes" if the face is one that I asked you to remember or "No" if it is not."

IF THE RESPONDENT DOES NOT UNDERSTAND THE DIRECTIONS, YOU MAY REPEAT THEM, PARAPHRASING WHERE NECESSARY.

TURN THE PAGE TO EXPOSE ITEM 1. EXPOSE EACH PHOTOGRAPH (1-48). RECORD THE PARTICIPANT'S RESPONSES ON PAGE 4 OF THIS FORM. CIRCLE WHETHER THE RESPONDENT SAYS "YES" OR "NO" TO EACH OF THE 48 FACES THAT ARE PRESENTED (i.e. CIRCLE "Y / YES" OR "N / NO"). LATER, THE RESPONSES ARE SCORED AS CORRECT OR NOT (i.e. BOLDFACE TYPE YES/NO=1, AND Y/N=0).

AFTER YOU HAVE SHOWN THE LAST RECOGNITION FACE FOR FACES I AND RECORDED THE RESPONSE, GIVE THE <u>FINAL INSTRUCTION</u>. I want you to remember the first group of faces I asked you to remember because later on I'm going to ask you to pick them out of another group of faces.

FACES I- CIRCLE "Y / YES" OR "N / NO"

CLE Y / YES OR N / NO			
ITEM/R	ESPON	ISE	SCORE 0 OR 1
1	Y	NO	FACEI17
2	YES	N	FACEI27
3	Y	NO	FACEI37
4	Y	NO	FACEI47
5	YES	N	FACEI57
6	Y	NO	FACEI67
7	YES	N	FACEI77
8	Y	NO	FACEI87
9	Y	NO	FACE197
10	Y	NO	FACEI107
11	YES	N	FACEI117

43	Y	NO	FACEI437
44	YES	N	FACEI447
45	Y	NO	FACEI457
46	YES	N	FACEI467
47	YES	N	FACEI477
*48	Y	NO	FACEI487

* AFTER YOU HAVE SHOWN THE LAST RECOGNITION FACE FOR FACES I AND RECORDED THE RESPONSE, GIVE THE FINAL INSTRUCTION.

I want you to remember the first group of faces I asked you to remember because later on I'm going to ask you to pick them out of another group of faces.

D. SYMBOL DIGIT MODALITIES TEST

Now, we are going to try something a little different.

PLACE THE LAMINATED TEST FORM IN FRONT OF RESPONDENT RESPONSES ON A BLANK SDMT FORM.

POINT TO KEY AT TOP OF PAGE AND SAY: Look at these boxes. Notice that each box has a little mark in the upper part and a number in the lower part. Each mark has its own number. Now look down here. [POINT]

Notice that the boxes on the top have marks, but the boxes on the bottom are empty. I want you to call out the number that goes with each mark. For example, look at the first mark and then look at the key. [POINT]

The number 1 goes with the first mark. So you call out the number 1 for the first box.

POINT OUT NEXT 2 ANSWERS: A 5 goes with this mark, and a 2 goes with this mark.

Now what number belongs in the next box?
POINT TO BOX IF NECESSARY. RECORD RESPONSE.

IF RESPONSE IS CORRECT, SAY: Good. You have the idea.

IF RESPONSE IS INCORRECT, SAY: No, that is a 1. AND POINT TO THE APPROPRIATE SYMBOL/ITEM PAIR IN KEY.

Now, for practice, tell me the numbers that belong in the rest of the boxes up to this line. DRAW OVER THE DOUBLE LINE IN THE PRACTICE ROW. Use your finger as you move along the row so you don't get lost.

<u>RECORD RESPONSES</u> TO REMAINING PRACTICE ITEMS (ANSWERS: 3 6 2 4 1 6). IMMEDIATELY CORRECT EACH ERROR AS ABOVE. RECORD "0" FOR NON-NUMERIC RESPONSES.

REINSTRUCT AND/OR ENCOURAGE GUESSING IF RESPONDENT IS CONFUSED ON THE PRACTICE ROW; E.G., If you don't know, guess a number from 1 to 9, and I'll tell you if you're right or wrong.

AFTER PRACTICE ROW IS COMPLETED. SAY:

Good, you know how to do them. I have some more of these I want you to do. When I tell you to begin start here [POINT TO THE FIRST SQUARE TO RIGHT OF DOUBLE LINE] and call out the numbers just like you have been doing until I say 'Stop.' If you make a mistake, tell me what you think the correct answer is. Do not skip any boxes and work as quickly as you can. Ready? Begin.

START TIMER AT "BEGIN," ALLOW 90 SECONDS, AND THEN SAY: Stop. RECORD RESPONSES.

DO NOT REINSTRUCT FURTHER; IF PRESSED, SAY: Just do the best you can.

SYMBOL DIGIT MODALITIES TEST (CONTINUED) – SCORING:

1.	Admin	istra	tion status (1, 6-10)		SDMTSTA7
	1	=	Test administered		
	6	=	Not administered because of physica	l impairment	
	7	=	Not administered because of verbal r	efusal	
	8	=	Not administered because of a behav	ioral reason	
	9	=	Not administered for some other reas	son	
			Specify#SDMTSPE7		
	10	=	Administered but not according to pr	otocol	
			Specify		
2.	Numbe	er of	Test Administrations	SDMTADM7	
3.	Numbe	er of	Practice Items Correct (0-7)	SDMTPRA7	
4.	Numbe	er of	Test Items Attempted (0-110)	SDMTATM7	
5.	Numbe	er of	Test Items Correct (0-110)	SDMTCOR7	

E. DIGITS BACKWARD

<u>ADMINISTRATION:</u> MAKE SURE YOU HAVE RESPONDENT'S ATTENTION BEFORE PRESENTING EACH ITEM. READ DIGITS CLEARLY AT ONE-PER-SECOND RATE, LETTING VOICE PITCH DROP/RISE ON LAST DIGIT. PRESENT EACH ITEM ONLY ONCE. IF REPETITION IS REQUESTED, SAY: Just tell me what you can remember.

DISCONTINUE AFTER TWO CONSECUTIVE ERRORS <u>AT A GIVEN ITEM LENGTH</u> (e.g., IF BOTH 4a AND 4b ARE ERRORS). IF REQUESTED, REINSTRUCT: After I say the numbers, you are to say them backwards.

IF RESPONDENT REPEATS THE NUMBERS FORWARD, SCORE THE RESPONSE AS AN ERROR (0) AND REINSTRUCT AS ABOVE. ONLY ONE UNREQUESTED REINSTRUCTION IS PERMITTED.

SCORING: CLASSIFY EACH RESPONSE AS ERROR (0) OR CORRECT (1) AND ENTER THE SCORE IN THE SPACE PROVIDED. FOR ITEMS NOT ADMINISTERED DUE TO BRANCHING OR DISCONTINUATION RULE, PLACE AN "-1" IN THE SPACE PROVIDED; FOR ITEMS NOT ADMINISTERED FOR ANY OTHER REASON, ENTER THE APPROPRIATE CODE: 6 = PHYSICAL IMPAIRMENT; 7 = VERBAL REFUSAL; 8 = BEHAVIORAL REASON; 9 = OTHER REASON.

<u>INSTRUCTION:</u> Now, let's move on to another part. I am going to say some numbers. When I stop, I want you to say them backwards.

ITEM RESPONSE CODE

P1. Try this one : 2 - 8 - 3."

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF ERROR (0), SAY: No, I said 2 - 8 - 3, so to say them backwards, you would need to say 3 - 8 - 2.

[GO TO P2]

P2. Try this one. Remember, you are to say them backwards. Ready? 1-5-8.

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF <u>ERROR</u> (0), SAY: No, I said 1 - 5 - 8, so to say them backwards, you would need to say 8 - 5 - 1. Now I have some more numbers. Remember, you are to say them backwards.

DIGITS BACKWARD (CONTINUED)

- 0 = Error
- 1 = Correct
- -1 = Not Administered due to discontinuation rule
- 6 = Not administered because of physical impairment
- 7 = Not administered because of verbal refusal
- 8 = Not administered because of behavioral reason
- 9 = Not administered for some other reason, Specify below
- 10 = Administered but not according to protocol, Specify below

<u>Item</u>		Response Code

G. FACES II

Now I'm going to show you some more pictures of faces. I want you to look at each face carefully. Say "Yes" if the face is one I asked you to remember earlier or "No" if it is not.

HAVE **STIMULUS BOOKLET II** READY.

IF THE RESPONDENT DOES NOT UNDERSTAND THE DIRECTIONS, YOU MAY REPEAT THEM, PARAPHRASING WHERE NECESSARY.

TURN THE PAGE TO EXPOSE ITEM 1. EXPOSE EACH PHOTOGRAPH (1-48). RECORD THE PARTICIPANT'S RESPONSES ON PAGE 11 OF THIS FORM. CIRCLE WHETHER THE RESPONDENT SAYS "YES" OR "NO" TO EACH OF THE 48 FACES THAT ARE PRESENTED (i.e. CIRCLE "Y / YES" OR "N / NO"). LATER, THE RESPONSES ARE SCORED AS CORRECT OR NOT (i.e. BOLDFACE TYPE YES/NO=1, AND Y/N=0).

FACES II – CIRCLE "Y / YES" OR "N / NO"

RCLE I / IES OR N/NO					
ITEM/R	ESPONSE		SCORE 0 OR 1

BIOIMPEDANCE

INTERVIEWER-ADMINISTERED ANNUAL FOLLOW-UP FORM

Study of Women's Health Across the Nation

SECTION A. GENERAL INFORMATION

		AFFIX ID LABEL HERE	
A1.	RESPONDENT ID:		<u>SWANID</u>
A2.	SWAN STUDY VISIT#	07	#VISIT
A3.	FORM VERSION:	03/03/2003	#FORM_V
A4.	DATE FORM COMPLETED:		BIODAY7 [†]
		M M D D Y Y Y	Υ
A5.	OPERATOR'S INITIALS:		#INITS
A6.	RESPONDENT'S DOB:	$\frac{1}{M}$ $\frac{1}{M}$ $\frac{1}{D}$ $\frac{9}{D}$	<u>Y</u> <u>#DOB</u>
		VERIFY WITH RESPONDE	NT
A7.	INTERVIEW COMPLETED IN:		#LOCATIO7
		OFFICE	
A8.	INTERVIEW LANGUAGE:		LANGBIO7
A9.	WAS BIOIMPEDANCE MEASURE		COMPBIA7
	NO		1
			,
	•	CE NOT DONE), SPECIFY REASON:	
	OUTSIDE OF 90-DAY WIN	DOME TO OFFICEDOW	2 (END)
		#PIONOTS7	
		#BIONOTS7 OON'T KNOW)	
	REFUSED		7 (END)

[†] This date is given in days since the initial baseline interview, which is day zero.

B1. Do you have an insulin pump, pacemaker or automatic implantable cardiac defibrillator (AAICDPUM7	AICD)?
NO	ND)
DON'T KNOW	,
IF YES OR DON'T KNOW, STOP . SUBJECT INELIGIBLE FOR BIOIMPEDANCE	
If you have not recently done so, I would like you to use the bathroom before we take this measurement, you will need to remove metal jewelry and your right sock and shoe. Two st electrodes will be placed on your right hand at the wrist and knuckles and two more will be placed to the toes and ankle. Once the electrodes are attached, it will take less than one minute for to measure your body composition.	ticky pads called ced on your right
Before we begin the bioimpedance measurement I need to ask you a few questions that will helpresults.	p us interpret the
B2. Have you exercised intensely for at least half an hour or taken a sauna within the last 12 since : a.m. / p.m.?	hours? That is,
EXER12H7	
NO	
REFUSED7	
B3. Have you had anything to eat or drink, apart from water, in the last 5 hours? That is, since : a.m. / p.m.?	
EAT5HR7	
NO	
YES	
B4. Have you had more than 2 alcohol drinks in the last 24 hours? That is, since : a.m. / p.m.?	
ALCO24H7	
NO1	
YES2	
REFUSED7	
B5. Do you have any embedded medical devices, metal pins or plates, clips or beads used to braces, staples from surgery or any other type of embedded <u>EMBDDEV7</u>	treat cancer,
NO1	
YES	
DON'T KNOW8	

Now I would like to measure your body composition using this bioimpedance equipment. Body composition is the amount of body fluids, fat, and lean body mass, including your muscles and organs found in your body.

Please remove all metal jewelry. Although you won't feel anyth accurate results. Now please remove your right shoe and sock b	
METJEWL7	
B6. DID PARTICIPANT WEAR ANY METAL JEWELRY D	URING MEASUREMENT?
NO YES	1 (B7)
B6.1. IF YES, WERE THERE ANY RINGS, BRACELE THE <u>MEASURED</u> SIDE? <u>ONMEASS7</u>	TS, WATCHES OR ANKLE JEWELRY ON
NOYES	
LEGS SHOULD BE FAR ENOUGH APART SO THAT THE TH AND ARMS SHOULD BE FAR ENOUGH APART SO THAT TOUCH THE TORSO.

IF THE SKIN IS DRY, APPLY A SMALL AMOUNT OF ECG CATTACHING ELECTRODES.	OR CONDUCTIVE PASTE BEFORE
B7. ON WHICH SIDE OF THE BODY WERE THE ELECT	
RIGHT LEFT	
THE VALID RANGE FOR THE CONDUCTANCE VALUE IS RANGE FOR THE REACTANCE VALUE IS -150 TO 150 OHM CONDUCTANCE OR REACTANCE OR <i>NEGATIVE</i> CONDUCTANCE OR REACTANCE ON THE NEXT PAGE.	MS. IF AN 'OUT OF RANGE'
B8. RECORD THE CONDUCTANCE / RESISTANCE VAI METER:	
(+ OR -)	<u>V7 / CONDFRZ7</u> OHMS
(

B9. RECORD THE REACTANCE / IMPEDANCE VALUE THAT APPEARS ON THE IMPEDANCE

(+ OR -) _____ OHMS

METER:

10.		REMENT RE-RUN? <u>Biori</u>	
11.	COMMENTS:		
		#OPERCO17	#OPERCO27

REMOVE AND DISPOSE OF THE ELECTRODES, BE SURE NOT TO INJURE THE SUBJECT'S SKIN. IF YOU HAVEN'T ALREADY DONE SO, COMPLETE QUESTION A10 = "YES (2)."

Thank you for your participation in this study.

IF AN <u>'OUT OF RANGE'</u> CONDUCTANCE OR REACTANCE IS DETECTED, IMMEDIATELY CHECK THE QUALITY OF THE ATTACHMENT OF THE ALLIGATOR CLAMPS AND THE SECURITY OF THE ELECTRODES TO THE SKIN. THEN, RE-DO THE PROCEDURE.

IF THE SECOND MEASUREMENT FALLS WITHIN THE VALID RANGE, IT SHOULD BE ENTERED INTO THE FIELD FOR Q.B8 OR Q.B9. THE INITIAL MEASUREMENT SHOULD BE RECORDED IN THE COMMENTS (Q.B11) AND Q.B10 SHOULD BE CODED "2=YES" RE-RUN.

IF THE SECOND ATTEMPT ALSO RESULTS IN AN INVALID RANGE, THEN VALIDATE WITH 500 OHM RESISTOR AND RE-RUN A THIRD ATTEMPT. IF THE *THIRD* MEASUREMENT FALLS WITHIN THE VALID RANGE, IT SHOULD BE ENTERED INTO THE FIELD FOR Q.B8 OR Q.B9. IF *THIRD* ATTEMPT VALUES ARE STILL INVALID, CODE "-2222" INSTEAD OF OUT OF RANGE VALUE. THE *INITIAL* AND *SECOND* MEASURMENTS SHOULD BE RECORDED IN THE COMMENTS (Q.B11) AND Q.B10 SHOULD BE CODED "2=YES" RE-RUN.

THE ABOVE PROCEDURES SHOULD ALSO BE FOLLOWED IF A *VALID BUT NEGATIVE* VALUE (BETWEEN -1 AND -800) IS DETECTED FOR CONDUCTANCE (Q.B8). IF THE SECOND OR THIRD CONDUCTANCE MEASUREMENT RESULTS IN A POSITIVE VALUE, IT SHOULD BE ENTERED INTO Q.B8 AND THE INITIAL MEASUREMENT(S) SHOULD BE RECORDED IN THE COMMENTS (Q.B11) AND Q.B10 SHOULD BE CODED "2=YES" RE-RUN. IF ALL THREE MEASUREMENTS RESULT IN A NEGATIVE VALUE, THEN THE FINAL <u>VALID</u> MEASUREMENT (BETWEEN -1 AND -800) SHOULD BE ENTERED INTO Q.B8.

ADDITIONAL MEASURES COLLECTED

The following answers pertain to the serum hormone and cardiovascular measures:

A9.	WAS E	NO	
THE	FOLLO	YESWING ONLY APPLY IF BLOOD WAS DRAWN.	2 (В1)
		w a blood sample I need to ask you a few questions.	
		ou currently pregnant?	PREGNAN7
	J	NO	
		YES	
		DON'T KNOW	
A11	Have v	you had anything to eat or drink, other than water, in the last	12 hours? That is
		: last night?	EATDRIN7
		NO	1
		YES	
A12	Did vo	ou start a menstrual period in the last five days?	STRTPER7
1112.	Did yo	-	
		NOYES	
		1 ES	2
1	A12.1.	What is the date that you started to bleed?	BLEDAY7 [†]
		$\frac{1}{M} \frac{1}{M} \frac{1}{D} \frac{1}{D} \frac{1}{Y} \frac{1}{Y} \frac{1}{Y} \frac{1}{Y} \frac{1}{Y}$	
		M M D D Y Y Y Y	
A13.	BLOO	D DRAW CATEGORY:	BLDRWAT7
		BLOOD DRAWN, PER PROTOCOL	1

	IF NOT A	ALREADY DONE, COMPLETE QUESTION A9 = "YES (2)"	
In ord	er to into	erpret your blood draw results, we need to ask you the follow	ving question.
A14.	Have y	you had any alcohol in the last 24 hours?	ALCHL247
	J	NO	
		± 1 🗸	

[†] This date is given in days since the initial baseline interview, which is day zero.

ADDITIONAL MEASURES COLLECTED (continued)

SERUM HORMONE MEASURES

1. Variables for assays

Variable	Assay	Units
DHAS7	Dehydroepiandrosterone sulfate	ug/dL
E2AVE7*	Estradiol (see important note below)	pg/mL
FSH7	Follicle-stimulating hormone	mIU/mL
SHBG7	Sex hormone-binding globulin	nM
<u>T7</u>	Testosterone	ng/dL

^{*} IMPORTANT NOTE: There were originally two estradiol result variables because estradiol was run in duplicate. E2AVE2 is the within-person arithmetic average of the two estradiol variables.

2. Flags and other variables

Variable	Meaning	Codes
CYCDAY7	Day of cycle	n/a
FLGCV7	Both Estradiol results are > 20 pg/mL and the within- subject coefficient of variation (CV) is > 15%.	0=no, 1=yes
FLGDIF7	One or both Estradiol results \leq 20 pg/mL and the difference between them is > 10 pg/mL.	
	 Note: Differences were found between some of the Estradiol duplicate measurements. The following guidelines were decided upon: 1. If both E2 values>20 pg/ml, CV must be ≤15%. 2. If one or both E2≤20 pg/ml, the two E2 results must agree within 10 pg/ml. 	
	DATA WITH THESE FLAGS SHOULD BE OMITTED FROM DATA ANALYSES, OR USED WITH CAUTION IF INCLUDED IN ANALYSES.	

^{*1=}yes means flagged

3. Changes to the data:

- Lower limit of detection (LLD). Hormone results below the LLD were recoded to a value of '.L'.
- LLDs changed over time. The following LLDs were provided by the lab and apply to all samples through 2009:

Hormone	Time Window on hormone measurement Lower Limit of Detection corresponding to LLD	
DHEAS	~ Sep. 15, 1997	<1.52 ug/dL (Initial value)
	Sep. 16, 1997 ~ Jan. 14, 1999	<0.304 ug/dL
	Jan. 15, 1999 ~	<1.5 ug/dL
E2	~ Feb. 20, 2000	<1.0 pg/mL (Initial value)
	Feb. 21, 2000 ~ Aug. 27, 2001	<2.0 pg/mL
	Aug. 28, 2001 ~ May 03, 2009	<4.0 pg/mL
	May 04, 2009 ~	<7.0 pg/mL
FSH	~ Aug. 05, 1999	<1.05 mIU/mL (Initial value)
	Aug. 06, 1999 ~ Nov. 10, 1999	<1.0 mIU/mL
	Nov. 11, 1999 ~ Jul. 19, 2000	<0.7 mIU/mL
	Jul. 20, 2000 ~ Oct. 29, 2002	<0.6 mIU/mL
	Oct. 30, 2002 ~ Sep. 28, 2003	<0.5 mIU/mL
	Sep. 29, 2003 ~ Feb 20, 2006	<0.4 mIU/mL
	Feb 21, 2006 ~	<0.8 mIU/mL
SHBG	~ Aug. 05, 1999	<1.95 nM (Initial value)
	Aug. 06, 1999 ~ Oct. 31, 1999	<1.9 nM
	Nov. 01, 1999 ~ Mar. 22, 2006	<2.0 nM
	Mar. 23, 2006 ~	<3.2 nM
T	~ Jun. 04, 1998	<2.19 ng/dL (Initial value)
	Jun. 05, 1998 ~ Jun. 17, 1999	<2.2 ng/dL
	Jun. 18, 1999 ~	<2.0 ng/dL
TSH	~ Sep. 24, 2000	<0.03 uIU/mL (Initial value)
	Sep. 25, 2000 ~ Jun. 21, 2006	<0.13 uIU/mL
	Jun. 22, 2006 ~ Mar. 26, 2007	<0.011 uIU/mL
	Mar. 27, 2007 ~	<0.01 uIU/mL

CARDIOVASCULAR MEASURES

1. Variables for assays

Variable	Assay	Units
CHOLRES7	Total cholesterol	mg/dl
TRIGRES7	Triglycerides	mg/dl
LDLRESU7	Low-density lipoprotein cholesterol (estimated)	mg/dl
HDLRESU7	High density lipoprotein cholesterol	mg/dl
GLUCRE7	Glucose	mg/dl
INSURES7	Insulin	uIU/ml
FACRESU7	Factor VII	%
FIBRESU7	Fibrinogen	mg/dl
PAIRESU7	PAI-1	ng/ml
TPARESU7	tPA	ng/ml
LPARESU7	Lipoprotein Lp(a)	mg/dl
LPA1RES7	Lipoprotein A-1	mg/dl
APOARES7	Apolipoprotein A-1	mg/dl
APOBRES7	Apolipoprotein B	mg/dl
CRPRESU7	C-reactive protein	mg/l

2. Flags and other variables

Variable	Meaning	Codes
FLAGSER7	Flag to indicate that lipids were measured on serum rather	0=no,
	than plasma because plasma was not available. Lipids for	1=yes
	these subjects were <u>not</u> set to missing.	

^{*1=}yes means flagged

3. Changes to the data:

- <u>Non-fasting Triglycerides, Insulin, & Glucose -</u> If women were not fasting, triglycerides, insulin and glucose were set to missing in the frozen data set because these assays are not valid for non-fasting samples.
- <u>Estimated vs. Direct LDL</u>. LDL is estimated using the Friedewald equation for all women with triglycerides below 400 mg/dl. If triglycerides exceed 400 mg/dl, LDL is set to missing.
- <u>Serum lipids</u>. A few subjects had their lipids measured from serum rather than plasma. The results were left as is but subjects were flagged (FLAGSER1=1).

BONE MINERAL DENSITY MEASURES

Five of the seven clinical sites did DXA bone scans on the spine and hip. The total bone mineral density scores had to be calibrated in order to apply machine change calibration correction factors.

Variable	Meaning	Codes
SPSCDAY7	Spine Scan Day	
SPSCTIM7	Spine Scan Time	
SPSCMOD7	Spine Scan Mode	5 = 2000 machine 11=4500 machine
HPSCDAY7	Hip Scan Day	
HPSCTIM7	Hip Scan Time	
HPSCMOD7	Hip Scan Mode	5 = 2000 machine 11=4500 machine
SPBMDT7	Total Spine BMD w/cross-calibration applied	
HPBMDT7	Total Hip BMD w/cross-calibration applied	

MENOPAUSAL STATUS MEASURES

Variable	Meaning	Codes
STATUS7	Menopausal Status	1 = Post by BSO (Bilateral Salpingo Oophorectomy)
		2 = Natural Post
		3 = Late Peri
		4 = Early Peri
		5 = Pre -
		6 = Pregnant/breastfeeding
		7 = Unknown due to HT use
		8 = Unknown due to hysterectomy

<u>STATUS7</u> represents menopausal status, and is determined from questions on bleeding patterns, current hormone use, pregnancy, breastfeeding, hysterectomy, and oophorectomy. Menopause status is compared across visits, and no women were allowed to move backwards in status (e.g. early peri at Visit 08 could not be pre at Visit 09)

<u>Post by BSO</u> - women with both ovaries removed (Bilateral Salpingo Oophorectomy or BSO) prior to natural post menopause

Natural Post - women who had no bleeding in the 12 months prior to the visit

<u>Late Perimenopause</u> - women who had bleeding in the last 12 months prior to her visit but no bleeding in the past three months

<u>Early Perimenopause</u> - women who had bleeding in the last three months but who said their menstrual periods had become farther apart, closer together, more variable, or more regular

<u>Premenopausal</u> - women who reported bleeding in the past three months and who responded that their menstrual periods had stayed the same since their last visit

<u>Pregnant/breastfeeding</u> – women who reported a pregnancy since the last visit or are currently breastfeeding

<u>Unknown due to HT use</u> - pre- and perimenopausal women using hormones, including birth control pills, estrogen, and progestin, patches and a few vaginal hormones (for a full list, please refer to Section IV)

Unknown due to hysterectomy – women who reported hysterectomy without BSO prior to natural post

<u>LMPDAY7</u> is the number of days from baseline (Day 0) to the date of the last menstrual period at Visit 07. It is pulled from another source that evaluated the menopause status related variables over time, and corrected inconsistencies via additional corroborating information

RACE/ETHNICITY

RACE Participant race/ethnicity is provided from the Screener dataset:

Variable	Meaning	Codes
RACE	Race at Screener (Screener Q.33, modified)	1: Black/African American 2: Chinese/Chinese American 3: Japanese/Japanese American 4: Caucasian/ White Non-Hispanic 5: Hispanic
